PHILIPS

Jamie Oliver Cutting tower

200 W

5 cutting variants

2 speeds

HR1055/90

Meals from scratch, even on your busiest days

It cuts directly into the bowl

The Jamie Oliver HomeCooker Cutting tower will give you an extra pair of hands in the kitchen so you have one thing less to focus on. It cuts directly into the HomeCooker pan or your own bowl.

Cutting and slicing directly into the pan

- Easy cutting and slicing directly into the pan
- XL feeding tube for all your ingredients
- 2 cutting and slicing speeds

Wide variety of cutting shapes and sizes

- 5 different discs that slice, shred and cut julienne

Designed for easy use

- Dishwasher safe parts for easy cleaning
- Safety lock ensures safe usage

asimpleswitch.com

Highlights

2 cutting and slicing speeds

You can choose which speed you need for your cutting, depending on the dish or recipe you are making. For cutting julienne use speed 1 and for slicing and grating use speed 1 for soft ingredients like mushrooms and speed 2 for hard ingredients like carrots and salami.

XL feeding tube

The XL feeding tube (76 x 50 mm) allows you to use all kinds of ingredients, without cutting it in small pieces before putting it in the feeding tube.

5-in-1 DirectCut technology

Due to the perfect design of the Cutting tower, it cuts directly into the pan. It will save you time as you don't need to cut on a separate plate, which you also don't have to clean afterwards. And you cut your ingredients directly into the pan just when you need them.

Dishwasher safe parts

To optimize the time spent in your kitchen, you can safely put the pan, lid, stirrer and steaming tier in your dishwasher.

Safety lock for safe usage

The two safety locks on the back of the Cutting tower prevent the Cutting tower from working when it is not properly closed. Both locks have to be closed and then the appliance is ready for cutting. In this way you will use the appliance always in a safe way.

Variety of shapes and sizes

The Cutting tower comes with 5 different cutting discs that enable 2 sizes of slicing (thick and thin), 2 sizes of shredding (medium and coarse) and cutting julienne.

Specifications

Accessories included
5 cutting and slicing discs

Design and finishing
