Philips
Analogue Monitor

SCD463/05

Digital signal confirmation

Enjoy total reliability due to the digital signal confirmation, which enables a continuous connection between the baby and the parent unit with visible and audible link indicators.

Complete peace of mind
- Minimum interference from other monitors
- Indicates a continuous connection between the two units
- Adjust the volume of the parent unit to suit any situation
- Lights up when batteries need recharging or replacing

Ultimate mobility in and around the house
- Ensures secure reception in and around the house

Convenience for you and your child
- Adjust sensitivity of baby unit to suit any situation

PHILIPS
sense and simplicity
