

Electronic User Manual (eUM) Upgrading Instruction

1. Download zip file from web site to USB stick & extract '**Dfu_prod.upg**' file

Note, **Dfu_prod.upg** file must be put in folder '**upgrades**' on root of USB stick

2. Insert USB stick in to your TV
3. Go to '**Setup**' and press '**OK**'
4. Then press '**Update SW**' & then press '**Local updates**'
5. Select the file name '**Dfu_prod.upg**' and press '**OK**'
6. press '**Next**' in the bottom of the screen
7. press '**Continue**' & then press '**Start**' at the bottom of the screen
8. Now the set screen will go black and start again
9. '**Installing system update**' will appear on the screen
10. Again the set screen will go black and start again
11. Installation is complete
12. You can go to Help menu by pressing '**Blue button**' in the remote control
