# Highlights

## Anti-slip grip

The grip's unique, ergonomic design and anti-slip materials make it easy to shave with precision and comfort.

## Cordless use only

An efficient, powerful lithium-ion battery gives you more shaves per charge. Charge it for an hour and you'll have up to 50 minutes of shaving time – that's around 17 shaves. Charge it for 3 minutes and you'll have enough power for one shave.

## DualPrecision heads

DualPrecision heads comfortably shave both long hairs and short stubble. 1. Slots cut long hairs. 2. Holes cut stubble.

## Skin protection system

Rounded low-friction heads adjust to the contours of your face to limit skin irritation.

## Water-resistant

For easy cleaning, and wet & dry use

## Pop-up trimmer

Complete your look by using the Pop-up trimmer. Perfect for maintaining a moustache and trimming sideburns.

## (Patented) Super Lift & Cut

The first blade raises each hair while the second blade comfortably cuts it below skin level, for a really smooth result.

## Aquatec wet and dry

The Aquatec wet & dry seal of the electric shaver lets you choose how you prefer to shave. You can get a comfortable dry shave or a refreshing wet shave using a shaving gel or foam for extra skin comfort.

## Flexing heads

The flexing heads of your shaver keep the shaving surface in close contact with your skin for a fast and efficient shave.

## SkinGlide system

The low-friction SkinGlide shaving surface slides smoothly along your skin for a close, easy shave.
