

First-time setup

1. Near your wireless router, connect the baby monitor to power.
2. Wait until the amber light flashes.
1. On your iPhone or iPad, download the Philips In.Sight app from AppStore.
2. Create and log in to your account.
1. Through Philips In.Sight, connect the baby monitor to the same Wi-Fi network as your phone.
2. As instructed on the screen, put the QR code image in front of the lens of the monitor.
3. Follow the onscreen instructions to complete the setup. The green light is always on when the connection is complete.

Place

Place the monitor in the room of your baby. Never place the baby monitor inside or mount it on the baby's bed or playpen.

Watch or listen to your baby

Through the Philips In.Sight app, you can watch or listen to your baby on an iPhone or iPad. Make sure that you have connected your iPhone or iPad to Wi-Fi or 3G/ 4G mobile network. With 3G/ 4G usage, data charge from the operator can occur.

To watch or listen to your baby through web browser, go to www.philips.com/insightwebview.
