11 Troubleshooting 26

12 Glossary 27
1 Important

Safety

- Read and understand all instructions before you use your apparatus. If damage is caused by failure to follow instructions, the warranty does not apply.
- This apparatus is designed for negative ground (earth) 12 V DC operation only.
- To ensure safe driving, adjust the volume to a safe and comfortable level.
- Improper fuses can cause damage or fire. When you need to change the fuse, consult a professional.
- Use only the supplied mounting hardware for a safe and secure installation.
- To avoid short circuit, do not expose the apparatus, remote control or remote control batteries to rain or water.
- Never insert objects into the ventilation slots or other openings on the apparatus.
- Clean the apparatus and frame with a soft, damp cloth. Never use substances such as alcohol, chemicals or household cleaners on the apparatus.
- Never place any objects other than discs into the apparatus.
- Never use solvents such as benzene, thinner, cleaners available commercially, or anti-static sprays intended for discs.
- Visible and invisible laser radiation when open. Avoid exposure to beam.
- Risk of damage to the apparatus screen! Never touch, push, rub or strike the screen with any object.

Caution

- Use of controls or adjustments or performance of procedures other than herein may result in hazardous radiation exposure or other unsafe operation.

Notice

The making of unauthorized copies of copy-protected material, including computer programs, files, broadcasts and sound recordings, may be an infringement of copyrights and constitute a criminal offence. This equipment should not be used for such purposes.

Windows Media and the Windows logo are trademarks, or registered trademarks of Microsoft Corporation in the United States and/or other countries.

“Made for iPod” and “Made for iPhone” mean that an electronic accessory has been designed to connect specifically to iPod, or iPhone respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod, or iPhone may affect wireless performance. Specifications are subject to change without notice. Trademarks are the property of Koninklijke Philips Electronics N.V. or their respective owners. Philips reserves the right to change products at any time without being obliged to adjust earlier supplies accordingly.

Recycling

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

When you see the crossed-out wheel bin symbol attached to a product, it means the product is covered by the European Directive 2002/96/EC:

Never dispose of your product with other household waste. Please inform yourself about the local rules on the separate collection of electrical and electronic products. The correct disposal of your old product helps prevent potentially negative consequences on the environment and human health.

Your product contains batteries covered by the European Directive 2006/66/EC, which cannot be disposed of with normal household waste.

Please inform yourself about the local rules on separate collection of batteries. The correct disposal of batteries helps prevent potentially negative consequences on the environment and human health.

This product complies with the radio interference requirements of the European Community.
2 Your car audio system

Congratulations on your purchase, and welcome to Philips! To fully benefit from the support that Philips offers, register your product at www.philips.com/welcome.

Introduction

With the in-car audio system, you can enjoy your drive while listening to:
• FM or AM (MW) radio
• DAB radio
• Audio from CD or MP3 disc
• Audio from USB devices
• Audio from iPod/iPhone
• Audio from other external devices

The unit supports the following media format:

![Media Format Icons]

What’s in the box

Check and identify the contents of your package:

1. Main unit
2. Remote control
3. Front panel
4. Trim plate
5. Carrying case for front panel
6. Sleeve
7. Rubber cushion
8. Screws x 4 pcs
9. ISO male connectors
10. Disassembly tools x 2 pcs
11. User manual
12. Quick start guide
13. DAB Antenna
Overview of the main unit

1 DBB/SUB-W
   - Switch on or off Dynamic Bass Boost (DBB) sound.
   - Switch on or off subwoofer.

2 Unlock the panel.

3 BAND/•
   - Select tuner band.
   - Return to previous menu.

4 •/OK
   - Turn the unit on or off.
   - Confirm selection.
   - Mute or unmute sound.
   - Rotate to adjust settings.
5  • Enter iPod/iPhone control mode.
6  • Eject disc.
7  • Connector for USB and iPod/iPhone.
8  • Connect external audio device.
9  • Access option menu.
10 • Access audio setting menu.
11 • Select audio source.
12 • Restore default settings.
13 • Select iPod/iPhone control mode.
14 • Select or store preset station 1.
15 • Select or store preset station 4.
16 • Select or store preset station 3.
17 • Select or store preset station 2.
18 • Select or store preset station 1.
19 • Select or store preset radio station 1 to 10.
20 • Select or store preset radio station 11 to 20.
21 • Select or store preset DAB radio station 1 to 20.
22 • Select or store preset DAB radio station 21 to 20.

Overview of the remote control

1  • Select preset radio station.
2  • Access option menu.
3. **Start play.**
   - Start play.
   - Pause or resume play.

4. **AUDIO**
   - Access audio setting menu.

5. **Tune to radio/DAB station.**
   - Tune to radio/DAB station.
   - Skip track.
   - Fast backward/forward play.

6. **OK**
   - Confirm selection.

7. **MENU**
   - Access system menu.

8. **Turn the unit on or off.**
   - Turn the unit on or off.
   - Mute or restore volume.

9. **Adjust volume.**

10. **Select tuner band.**
    - Select tuner band.
    - Return to previous/top menu.

11. **Select audio source.**

12. **Enter iPod/iPhone control mode.**

13. **Select MAX Sound audio setting.**

14. **Select equalizer (EQ) setting.**

15. **Turn on or off Dynamic Bass Boost (DBB) sound.**

16. **Search for tracks.**

17. **Search for folders.**

18. **In FM/DAB/USB mode, press and hold to select LCD color.**
    - In DAB mode, press briefly to display DAB radio station list.
    - In tuner or iPod/iPhone mode, press briefly to display station info or iPod/iPhone info.
    - In iPod/iPhone mode, press and hold to access music search mode.

19. **View clock.**
3 Get started

⚠️ Caution

- Use the controls only as stated in this user manual.

Always follow the instructions in this chapter in sequence.
If you contact Philips, you will be asked for the model and serial number of your apparatus. The model number and serial number are on the bottom of your apparatus. Write the numbers here:
Model No. __________________________
Serial No. ___________________________

Install the car audio

Please refer to the “Installation guide” in quick start guide.

Attach the front panel

1 Attach the trim plate.

2 Insert the right side of the panel in the chassis until it is correctly engaged.

3 Press the left side of the panel until the mechanism locks it into place.

Place the DAB antenna

⚠️ Warning

- Make sure the antenna cable does not interfere with the safe operation of driving wheel, air bags and seatbelts or other equipment.
- Before entering low overhangs, car washes, or other places with obstacles which may catch on or touch the antenna, remove the antenna to avoid potential damage.
- Damage caused by not following the installation instructions is not covered by warranty.
1 Find a location as flat as possible on the outside of your car. For example, the roof near the windshield, or rear window. Note: The magnetic base of the antenna will remain secure at normal vehicle speeds in non-windy conditions. Antennae installed on curved surfaces may become detached in windy conditions.

2 Make sure the selected surface is clean and free of dirt, water, or other substances which could inhibit attachment to the surface.

3 Gently place the magnetic steel base of the DAB/DAB+ antenna on the surface you selected. The magnetic steel base will stick to any metallic surface. Note: Damage may be caused to the paintwork of the car if the antenna slides or rotates on the car surface.

4 Route the cable: Tuck the cable under weather strip of the door and run the cable through the passenger doorway or tailgate. Reserve enough slack in your cable to fit open doors or deck lids. Secure cables to avoid cable being pinched between hinges and the door.

Install remote control battery

Caution

- Risk of explosion! Keep batteries away from heat, sunshine or fire. Never discard batteries in fire.
- Risk of decreased battery life! Never mix different brands or types of batteries.
- Risk of product damage! When the remote control is not used for long periods, remove the batteries.
- Perchlorate Material - special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate.

For first-time use:

1 Remove the protective tab to activate the remote control battery.

To replace the remote control battery:
1 Open the battery compartment.
2 Insert one CR2025 battery with correct polarity (+/-) as indicated.
3 Close the battery compartment.

Turn on

1 Press Φ to turn on the unit.
   • To turn off the unit, press and hold Φ for a few seconds.

Set clock

1 Press MENU.
2 Press ■■■■ repeatedly until [CLK SET] displays.
3 Rotate Φ to set hour.
4 Press Φ to confirm.
5 Rotate Φ set minute.
6 Press Φ to confirm.
4 Listen to radio

Tune to a radio station

1 Press SOURCE repeatedly to select radio mode.

2 Press BAND/\ to select band: [FM1], [FM2], [FM3], [AW1] or [AW2].

3 Press \ or \ to tune to a radio station manually.
   \ The radio station is broadcast.
   \ To search for a radio station automatically, press and hold \ or \ for a few seconds.

Select tuner region

You can select suitable country/region of the radio.

1 Press SOURCE to select Radio mode.

2 Press MENU.

3 Press \ \ \ \ \ \ repeatedly until [AREA] is displayed.

4 Rotate \ to select:
   • [USA]
   • [LATIN]
   • [Europe]
   • [ASIA]
   • [M-EAST]
   • [RUSSIA]

Select tuner sensitivity

To receive more radio stations or only stations with strong signal, you can adjust the tuner sensitivity.

1 Press OPTIONS repeatedly to select [LOCAL SEEK].

2 Rotate \ to select a setting:
   • [LOCAL SEEK ON]: Only stations with strong signal can be broadcast.
Play with RDS

The RDS (Radio Data System) function operates only in areas with FM stations broadcasting RDS signals. If you tune to an RDS station, an RDS icon and information about the presenter, station or program is displayed.

Turn on RDS

Note
- The default setting for RDS is on.

1 Press MENU.
2 Press \[5+\] repeatedly until [RDS] is displayed.
3 Rotate \(\varnothing\) to select option:
   - [RDS ON]: The RDS function is on.
   - [RDS OFF]: The RDS function is off.

Select program type

Before tuning to RDS stations, you can select program type and let the unit search only for programs of the selected category.

1 Press OPTIONS until [PTY] displays.
2 Press \[5+\] to confirm.
3 Rotate \(\varnothing\) to select a type, then press \(\varnothing\) to confirm.

Store radio stations in memory

You can store up to 10 stations in each band.

Store stations automatically

1 Press OPTIONS repeatedly until [AUTO-STORE] displays.
2 Press \(\varnothing\) to confirm.
   - The 10 strongest stations of the selected band are saved in preset channel automatically.

Store stations manually

1 Tune to a station that you want to store.
2
   - For preset 1 to preset 4, press and hold button \(1\) to \(4\) to store the corresponding station.
   - For preset 5 to 10, press and hold button \(5+\) and rotate \(\varnothing\) to select a number (1-10) for the preset.
3 Press \(\varnothing\) to confirm.
   - The station is saved in the selected channel.
   - The preset number lights up on the LCD screen.

Tune to a preset station

1 Press BAND/\(\varnothing\) to select band.
2 Press \(5+\) and rotate \(\varnothing\) to select the preset number.
3 Press \(\varnothing\) to confirm the selection.

• [LOCAL SEEK OFF]: Stations with strong and weak signals can be broadcast.
Select alternate frequencies

If the radio signal is poor, turn on AF (Alternate Frequency) to search for another station with stronger signal.

1. Press OPTIONS.
2. Press \(\ldots\) repeatedly until [AF] displays.
3. Rotate \(\Theta\) to select a setting:
   - [AF ON]: Turn on the AF mode.
   - [AF OFF]: Turn off the AF mode.

Set region for AF tuning

You can define AF tuning region:

- **[REG ON]**: Only stations in current region can be tuned to automatically.
- **[REG OFF]**: All stations can be tuned to automatically.

1. Press MENU.
2. Press \(\ldots\) repeatedly until [REG] displays.
3. Rotate \(\Theta\) to select a setting.

Receive traffic announcement

If you do not want to miss traffic announcement when enjoying music, turn on the TA (Traffic Announcement) function.

1. Press OPTIONS.
2. Press \(\ldots\) repeatedly until [TA] displays.
3. Rotate \(\Theta\) to select a setting:
   - [TA ON]: When there is traffic announcement, the unit switches to the tuner mode (regardless of the current mode) and begins to broadcast the traffic conditions. When the traffic announcement is over, it returns to the previous mode.
   - [TA OFF]: Traffic announcement does not cut in.
**Set RDS clock**

You can use time signal that is broadcast together with the RDS signal to set the clock of the unit automatically.

1. Press **MENU**.
2. Press `>` repeatedly until [CT] displays.
3. Rotate 0 to select a setting:
   - **[CT ON]**: Turn on the RDS clock. Time shown on the unit synchronizes with that on the RDS station.
   - **[CT OFF]**: Turn off the RDS clock.

**Tip**

- The accuracy of the transmitted time depends on the RDS station that transmits the time signal.

---

**5 Listen to Digital Audio Broadcasts (DAB)**

Digital Audio Broadcasting (DAB), is a way of broadcasting radio digitally through a network of transmitters. It provides you with more choice, better sound quality, and more information.

**For the first time** when DAB mode is switched on.

1. Press **SOURCE** on the main unit repeatedly to select DAB/DAB+.
   - The system performs auto scan.
   - All the available DAB stations are stored.
   - The radio tunes to the first available station

**Tip**

- The display shows a rectangle. The position of the rectangle indicates the degree of signal strength. (The further towards the right, the greater the signal strength.)
- If there is no DAB coverage currently available, or DAB signal is too weak in your area, no DAB station will be found, and message like “No Station Found, Scan Again” displays.

---

**Tune to DAB radio station manually**

1. Under DAB mode, press and hold `>` to enter manual seek mode.
   - “MANUAL” blinks on LCD screen.

2. Press `>` repeatedly until the the desired channel/frequency appears.
Scan for new DAB stations

1. Under DAB mode, press **MENU** repeatedly until [DAB SCAN] is displayed.
2. Press 0 to confirm.
   - The system scans for all available DAB radio stations and broadcasts the first station.

Tip

- New stations and services will be added in the DAB broadcast. To make new DAB stations and services available on your car audio, scan on a regular base.

Store DAB stations automatically

1. In DAB mode, press **MENU** to enter the menu options.
2. Press ▶◀▶▶ EVERYTIME until [DAB STORE] displays.
3. Press 0 to confirm.
   - The 20 strongest stations of the selected band are saved in preset channel automatically.

Program DAB radio stations manually

You can program a maximum of 20 preset DAB radio stations.

1. Tune to a DAB station.
2. For preset 1 to preset 4, press and hold button 1 to 4 to store the corresponding station.
   - For preset 5 to 10, press and hold button 5+ and rotate 0 to select a number (1-20) for the preset.

3. Press 0 to confirm.
   - The station is saved in the selected channel.
   - The preset number is displayed on the LCD screen.

Note

- If a DAB station is already stored under a preset location, new DAB station assigned to this location will overwrite the old DAB station.
- DAB station presets will not overwrite FM presets.

Tune to a preset station

1. Press 5+ and rotate 0 to select the preset number.
2. Press 0 to confirm the selection.

Note

- If the Scanned/Preset DAB station signal is not available at particular time/region, [No] is displayed.

Display DAB information

On the display of DAB broadcasting, the first line shows station name, and the second line shows the service information for the current station. 6 types of service information are available.

1. Tune to a DAB station.
2. Press **OPTIONS/CLOCK** repeatedly to scroll through the display information (if available).
• Multiplex name: Displays the name of the DAB multiplex in which the current station is broadcast.
• Multiplex info: Displays the channel and frequency of the current DAB multiplex.
• Program type: Describes the content of the current DAB station.
• Scrolling text: Information broadcast by most DAB stations (may include song titles, news, etc)
• Signal Strength: Displays a meter illustrating the strength of the DAB signal 0-100.
• Signal Quality: Display DAB signal quality, from 0 to 100.

**Tip**
- If any information above is selected, when you tune to another DAB station, you can press OPTIONS/CLOCK once to display the selected information, no need to scroll through the list.

### Weak DAB signal

Select the switch over option when DAB signal is weak.

1. In the DAB mode, press **MENU** to enter the menu options.
2. Press **MENU** repeatedly until [WEAK DAB] is displayed.
3. Rotate ø to select an option.
   - [WEAK MUTE]: When the DAB signal is weak, fade out the DAB audio and mute it until the DAB signal is strong, then the audio will fade in to the original volume level.
   - [WEAK TO FM]: When the DAB signal is weak, switch to the last listened FM station. Switch back to DAB when signal is strong.

### DAB Dynamic Range Control

DRC adds or removes a degree of compensation for the differences in the dynamic range between radio stations.

1. In DAB mode, press **MENU** to enter the menu options.
2. Press **MENU** repeatedly until [DAB DRC] is displayed.
3. Rotate ø to select an option.
   - [DRC Off]: No compensation applied. (the default)
   - [DRC Low]: Medium compensation applied.
   - [DRC High]: Maximum compensation applied.

**Note**
- The best way to determine which of these DRC value settings suits you best is to experiment with them on various source material.

### DAB Antenna

1. In DAB mode, press **MENU** to enter the menu options.
2. Press **MENU** repeatedly until DAB antenna option is displayed.
3. Rotate ø to select an option.

Multiplex name: Displays the name of the DAB multiplex in which the current station is broadcast.
Multiplex info: Displays the channel and frequency of the current DAB multiplex.
Program type: Describes the content of the current DAB station.
Scrolling text: Information broadcast by most DAB stations (may include song titles, news, etc)
• [ANTENNA OFF]: Select when using the DAB aerial without the booster.
• [ANTENNA 12V]: Select when using the DAB aerial with the booster (12V).

DAB sorting

With this option, you can select the way that the station list is arranged.
1 In DAB mode, press MENU to enter the menu options.
2 Press ▶ ▶ ▶ repeatedly until [DAB SORTING] is displayed.
3 Rotate ◐ to select an option.
   • [SORT ACTIVE]: Lists active stations first on the station list.
   • [SORT A-Z]: Lists all stations in alphanumeric order (0-9, A-Z).
   • [SORT MULTIPLEX]: Lists stations in groups according to their multiplex (a group of stations broadcast by the same operator).

You can tune to a DAB station through the sorted DAB station list.
1 Under DAB mode, press DISP once to display the DAB station list.
2 Rotate ◐ to scroll through the DAB station list in the order set above.
3 Press ◐ to switch to the selected DAB station.

6 Play audio files

Note
• Ensure that the disc or device contains playable files.

Play a disc

Note
• You cannot play CDs encoded with copyright protection technologies.

You can play commercially available audio CDs and these discs:
• CD-Recordables (CD-R)
• CD-Rewritables (CD-RW)
• MP3 CDs
• WMA CDs

Note
• Ensure that the disc contains playable content.

1 Insert a CD with the printed side facing up. ➔ Play starts automatically.
   • To pause CD play, press ◐.
   • To resume CD play, press ◐ again.
   • To skip to the previous/next track, press ◘ ◘ or ◘ ◘.
   • To search backward/forward rapidly in the current track, press and hold ◘ ◘ or ◘ ◘ for a few seconds.

Remove the CD
To take out the CD, press ▲ on the front panel.

Tip
• If the disc is blocked in the disc compartment, press and hold ▲ until the disc comes out.
Play from USB

Note

- Ensure that the USB device contains playable music.

Insert the USB device

1. Slide the USB connector cover marked to the left.
2. Insert the USB storage device into the USB connector.
   - The unit starts playing from the USB storage device automatically.

Search for an MP3/WMA track

Search within the current folder

1. Press SONG.
   - The name of the current track is displayed.
2. Rotate  to select another track in current folder.
3. Press  to confirm.

Search in other folder

1. Press FOLDER.
   - The name of the current folder is displayed.
2. Rotate  to navigate through all folders.
3. Press  to access the selected folder.
4. Rotate  to select a track in the folder.
5. Press  to start play.

Tip

- To go back to upper level of a folder, press  .

View play information

1. During playing, press DISP repeatedly to view:
   - Track number and elapsed play time
   - Artist
   - Album
   - Title
   - Folder
   - File

Repeat play

1. During play, press OPTIONS repeatedly until [REPEAT] is displayed.
2. Rotate  to select a setting.

Remove the USB device

1. Press  to turn off the unit.
2. Remove the USB storage device.

Note

Ensure that the USB device contains playable music.

Insert the USB device

1. Slide the USB connector cover marked to the left.
2. Insert the USB storage device into the USB connector.
   - The unit starts playing from the USB storage device automatically.

Search for an MP3/WMA track

Search within the current folder

1. Press SONG.
   - The name of the current track is displayed.
2. Rotate  to select another track in current folder.
3. Press  to confirm.

Search in other folder

1. Press FOLDER.
   - The name of the current folder is displayed.
2. Rotate  to navigate through all folders.
3. Press  to access the selected folder.
4. Rotate  to select a track in the folder.
5. Press  to start play.

Tip

- To go back to upper level of a folder, press .

View play information

1. During playing, press DISP repeatedly to view:
   - Track number and elapsed play time
   - Artist
   - Album
   - Title
   - Folder
   - File

Repeat play

1. During play, press OPTIONS repeatedly until [REPEAT] is displayed.
2. Rotate  to select a setting.

Remove the USB device

1. Press  to turn off the unit.
2. Remove the USB storage device.
Made for:
- iPod nano (2nd generation)
- iPod nano (3rd generation, 4GB only)
- iPod nano (3rd generation, 8GB only)
- iPod nano (4th generation)
- iPod nano (5th generation)
- iPod classic (1st generation)
- iPod classic (2nd generation)
- iPod touch (1st generation)
- iPod touch (2nd generation)
- iPod touch (3rd generation)
- iPod video (30GB, 80GB only)
- iPhone
  - iPhone 3G
  - iPhone 3GS
  - iPhone 4

Shuffle play

You can play the tracks in random order:
1. During play, press OPTIONS repeatedly until [RANDOM] displays.
2. Rotate Φ to select a setting:
   - [RANDOM OFF]: Turn off random play.
   - [RANDOM FLD]: Start random play for all tracks in the current folder.
   - [RANDOM ALL]: Start random play for all tracks.

Intro play

You can play the first 10 seconds of each track.
1. During play, press OPTIONS repeatedly until [INTRO] displays.
2. Rotate Φ to select a setting:
   - [INTRO OFF]: Cancel intro play and start normal play.
   - [INTRO FLD]: Start intro play in the current folder.
   - [INTRO ALL]: Play the first 10 seconds of each track.

Play from iPod/iPhone

You can enjoy audio from iPod/iPhone through this unit.

Compatible iPod/iPhone

Apple iPod and iPhone models with a 30-pin dock connector:
Control music playback on iPod/iPhone

1. Make sure that the iPod/iPhone is connected correctly.
2. Press SOURCE to select iPod USB mode.
3. Press SOURCE repeatedly to toggle between the two control modes:
   - iPod control mode: Use the buttons/touch screen on iPod/iPhone to control the music.
   - Audio control mode: Use the control buttons on car audio to control the music.

To control playback under audio control mode:
   - To pause/resume play, press ⊕.
   - To skip to a track, press Previous/Next.
   - To search during play, press and hold Previous/Next, then release to resume normal play.
   - To navigate the menu, press ⊕, rotate ⊕ to select, then press ⊕ to confirm.

Search for a track on iPod/iPhone

1. Press SOURCE repeatedly to select iPod mode.
2. Press BAND/ ● to browse iPod/iPhone menu.
3. Rotate ⊕ to select the artist search mode, and press ⊕ to confirm.
4. Press DISP/ ● to search alphabetically.
5. Rotate ⊕ to select artist, then press ⊕ to confirm.
6. Rotate ⊕ to select song in current album.
7. Press ⊕ to start play.

Note

- You cannot control the music via iPod/iPhone under audio control mode.

Connect external sound source

1. Connect the external sound source to MP3 LINK connector with a 3.5 mm cable.
2. Press SOURCE repeatedly until [MP3 LINK] is displayed.
3. Operate the external component (See the instructions supplied with the external component).
7 Adjust sound

Adjust volume

1 Rotate \( \Phi \) clockwise/anticlockwise to increase/decrease volume.

Mute

You can turn off the sound of your audio.

1 During play, press \( \Phi \).
   • To resume sound, press \( \Phi \) again.

Turn DBB and subwoofer on/off

1 Press DBB, then the current setting is displayed:
   \( \leftarrow \) [DBB ON]: The Dynamic Bass Boost (DBB) function is on.
   \( \leftarrow \) [DBB OFF]: The DBB function is off.
2 Press DBB again to change the DBB setting.
3 Press and hold DBB to access subwoofer settings:
   \( \leftarrow \) [SUBWOOFER ON]: The subwoofer function is on.
   \( \leftarrow \) [SUBWOOFER OFF]: The subwoofer function is off.

Select preset equalizer

1 Press EQ/Audio.
   \( \leftarrow \) Current Equalizer setting is displayed.
2 Press EQ/Audio again to select a preset EQ setting:
   • [OPTIMAL] (optimal)
   • [FLAT] (flat)

Turn on/off max sound

1 Press MAX.
   \( \leftarrow \) The current setting is displayed.
   \( \leftarrow \) [MAX ON]: The maximum sound (max sound) function is on.
   \( \leftarrow \) [MAX OFF]: The maximum sound function is off.

Other sound settings

You can also change the preset EQ/Audio settings.

1 Press EQ/Audio for 3 seconds.
2 Press \( \leftarrow \) repeatedly to select the item to be adjusted:
   • [BASS LEVEL] range: -7 to +7
   • [BASS CFQ] (bass center frequency) range: 60, 80, 100, 200.
   • [MIDDLE LEVEL] range: -7 to +7
   • [MIDDLE CFQ] (middle center frequency) range: 0.5k, 1.0k, 1.5k, 2.5k.
   • [TREBLE LEVEL] range: -7 to +7
   • [TREBLE CFQ] (treble center frequency) range: 10.0k, 12.5k, 15.0k, 17.5k.
   • [BALANCE] range: 12L to 12R.
     (L= left speaker, R = right speaker)
   • [FADER] range: 12R to 12F.
     (R = rear speaker, F = front speaker)
   • [SUBWOOFER] range: 0 to 12.
   • [RESUME]: Resume the audio setting value to factory default value.
3 Rotate \( \Phi \) to select a value/option.
8 Adjust system settings

Turn beep sound on/off

Each time you press a button, the unit beeps. You can turn on or off this beep sound.

1. Press MENU.
2. Press \[\triangleright\triangleright\triangleright\triangleright\] repeatedly until [BEEP] is displayed.
3. Rotate \(\Phi\) to select a setting:
   - [BEEP ON]: Turn on the beep sound.
   - [BEEP OFF]: Turn off the beep sound.

Select blackout setting

You can set the screen to turn off automatically after the unit is idle for 10 or 20 seconds.

1. Press MENU.
2. Press \[\triangleright\triangleright\triangleright\triangleright\] repeatedly until [BLKOUT] is displayed.
3. Rotate \(\Phi\) to select a setting:
   - [BKO 10 S]: Turn off the screen automatically 10 seconds after last operation.
   - [BKO 20 S]: Turn off the screen automatically 20 seconds after last operation.
   - [BKO OFF]: Never turn off the screen.

Turn demo mode on/off

1. Press MENU.
2. Press \[\triangleright\triangleright\triangleright\triangleright\] repeatedly until [DEMO] is displayed.
3. Rotate \(\Phi\) to select a setting:
   - [DEMO ON]: Turn on the demo mode. When the unit is idle for more than 10 seconds, all functions are displayed.
   - [DEMO OFF]: Turn off the demo mode.

LCD Color

You can change LCD background color:

1. Press MENU.
2. Press \[\triangleright\triangleright\triangleright\triangleright\] repeatedly until [LCD COLOR] displays.
3. Rotate \(\Phi\) to select a setting:
   - [DEFAULT] (default setting)
   - [COLOR SCAN] (color scan)
   - [WHITE] (white)
   - [GREEN 1] (green 1)
   - [GREEN 2] (green 2)
   - [GREEN 3] (green 3)
   - [AMBER] (amber)
   - [PINK 1] (pink 1)
   - [PINK 2] (pink 2)
   - [PURPLE 1] (purple 1)
   - [PURPLE 2] (purple 2)
   - [BLUE 1] (blue 1)
   - [BLUE 2] (blue 2)
   - [USER COLOR] (user color)

Set user color

1. Press MENU.
2. Press \[\triangleright\triangleright\triangleright\triangleright\] repeatedly until [LCD COLOR] displays.
3. Press \(\Phi\).
4. Rotate \(\Phi\) to select [USER COLOR].
5. Press \(\Phi\) to confirm.
6. Rotate \(\Phi\) to adjust color of the LCD. R(red)/G(green)/B(blue)
7. Press \(\triangleright\) to exit user color setting mode.
9 Additional information

Detach the front panel

You can detach the front panel to deter theft.
1 Press \( \uparrow \) to release the panel.
2 Push the left side of the panel rightward.
3 Pull the panel towards you to disengage it from the chassis.
4 Store the panel in the supplied carry case to protect it from dirt or damage.

Replace fuse

If the fuse is damaged,
1 Check the electric connection.
2 Buy a fuse that matches the voltage of the damaged fuse.
3 Replace the fuse.

Dimmer

1 Press \( \text{MENU} \)
2 Press \( \leftarrow \rightarrow \rightarrow \rightarrow \) repeatedly until [DIMMER] is displayed.
3 Rotate \( \bigcirc \) to toggle between the settings
   • [DIMMER Hi]
   • [DIMMER Lo]

Reset

You can reset the unit to its default setting.
1 Detach the front panel.
2 Press the reset button by using a ballpoint pen or a similar tool.
   \( \rightarrow \) Preset adjustments such as preset channels and sound adjustments are erased.

Preset adjustments such as preset channels and sound adjustments are erased.

3 Store the panel in the supplied carry case to protect it from dirt or damage.

| Sensitivity          | -100dBm(Band III) |
| Selectivity          | 40dB             |

Remove the unit

You can remove the unit from the dashboard.

1. Detach the front panel.
2. Pull out the unit by using the disassembly tools.
11 Troubleshooting

Caution

- Never remove the casing of this apparatus.

To keep the warranty valid, never try to repair the system yourself.
If you encounter problems when using this apparatus, check the following points before requesting service.

No power or no sound.
- Car engine is not on. Switch on the car engine.
- Cable is not correctly connected. Check connections.
- Fuse is burnt. Replace fuse.
- Volume is too low. Adjust volume.
- If the above solutions cannot help, press the RESET button.
- Make sure that the track played is of a compatible format.

Noise in broadcasts.
- Signals are too weak. Select other stations with stronger signals.
- Check the connection of the car antenna.
- Change broadcast from Stereo to mono.

Cannot play disc
- make sure that the disc label is inserted with the printed side facing up.
- Wipe the disc with fiber cleaning cloth from the center to the edge in a straight line.
- This disc may be defective. Play another disc.
- Make sure that the CD is a finalized CD/CD-R/CD-RW.
- Make sure that the CD is not encoded with copyright protection technologies.

The CD skips tracks
- Make sure that the CD is not damaged or dirty.
- Make sure that random mode is deactivated.
Disc cannot be ejected
• Press and hold ▲

Preset stations lost.
• Battery cable is not correctly connected. Connect the battery cable to the terminal that is always live.

Display show ERR-12
• USB data error. Check the USB storage device.

12 Glossary

M

MP3
A file format with a sound data compression system. MP3 is the abbreviation of Motion Picture Experts Group 1 (or MPEG-1) Audio Layer 3. With the MP3 format, one CD-R or CD-RW can contain about 10 times more data than a regular CD.

W

WMA (Windows Media Audio)
An audio format owned by Microsoft, is a part of Microsoft Windows Media technology. Includes Microsoft Digital Rights Management tools, Windows Media Video encoding technology, and Windows Media Audio encoding technology.
