- 3. Download and install .NET Framework Version 2.0:
  - a. .NET Framework software can be downloaded from the Microsoft downloads website, see above example:

http://www.microsoft.com/downloads/details.aspx?FamilyID=0856EACB-4362-4B0D-8EDD-AAB15C5E04F5&displaylang=en

- b. Alternatively, a search engine like Google can also be used to search for this software download.
- c. Select the Download button on the Microsoft webpage to download or run the installation of this software to the PC. A dialog box will appear prompting either to Run or Save the software application. Choose Run to install the **.NET Framework Version 2.0**. This can take quite some time (10 minutes or longer).
- d. Note: This **.NET Framework Version 2.0** is required to be installed first into the PC before the CDROM provided in the Easy Advertiser product package can be used to install the Easy Advertiser Publisher software.
