# Highlights

## High temperature grill plates

The high temperature of the grill plates seals in all the juices and flavour of the food. That's because the moment the food comes into contact with the surfaces of the grill, it begins to sizzle and brown, forming a tasty crust that keeps all the goodness and flavour inside, where it belongs.

## Adjustable thermostat

Adjustable thermostat ensures the perfect result.

## Upright storage

Easy to store upright; tidy storage of cord and tray.

## Dishwasher-safe parts

Dishwasher-safe parts make cleaning easy.

## Sloped or horizontal grilling

The adjustable grilling surfaces can be used in either a sloped or horizontal position, giving you plenty of different ways to cook. The sloped position lets excess grease run off into the included grease tray, which is very healthy and ideal for meats and foods containing excess oil. The horizontal setting is for cooking the food in its own tasty juices or a marinade, and is great for stir-frying and grilling.

## Multiple grilling positions

The grill can be used with the lid sealed, fully open or gratin, allowing you to prepare many different dishes. 1. The sealed position holds in all the flavour and is ideal for grilling meat, fish, vegetables or sandwiches. 2. The fully open position is like a mini-barbeque, perfect for table grilling, fun cooking or warming up your food. 3. The gratin position is suitable for melting cheese onto toast or vegetables such as tomato and courgette.

## Floating hinge

Floating hinge to grill any thickness of food.
