Hot drink with a twist

Kettle with variable temperature control

Every hot drink requires a certain temperature, ranging from ready-to-sip drinks to boiling. Simply select the temperature you require by turning the control knob, and enjoy your perfect instant coffee, instant noodles, green or black tea.

Advanced

- Variable temperature control to prepare various drinks
- Anti-calc filter for a clean cup of water
- Flat heating element for fast boiling and easy cleaning

Easy to experience

- Two sided water level indicators for left & right handed use
- Pirouette 360° center connector for left and right handed use
- Pilot light illuminates when kettle is switched on

Safe to use

- Automatic shut-off in case of too little water
- Precision spout without splashing hot water
- Hinged locking, cool lid for optimal safety
- Lid knob stays cool for a safe touch

Highlights

Variable temperature control

Every drink requires a specific water temperature to realise the best end result. By turning the temperature control knob, the temperature level of the water can be influenced. Making sure the basic ingredient for your tea, instant coffee, soup or noodles is at the temperature you like.

Automatic shut-off

Once the water boils, the kettle shuts off automatically. Also, in case there is too little water in the kettle, the kettle will shut off automatically to avoid a dangerous situation. The kettle can work again directly, by taking the kettle from the base, adding water and switching it on.

Flat heating element

Flat heating element for fast boiling and easy cleaning

Hinged locking, cool lid

Hinged locking lid connected to the kettle, avoiding steam to escape. The lid grip stays cool for optimal safety whilst handling.

Precision spout

The spout shape allows the stream to fit any cup or opening, without spoiling hot water elsewhere, independent of pouring speed.

Anti-calc filter

Anti-calc filter for a clean cup of water and a cleaner kettle.

Double water level indicators

Two sided water level indicators for left & right handed use

Pilot light

Pilot light around the temperatur control knob illuminates, clearly indicating when the kettle is switched on.

Pirouette 360° center connector

Pirouette 360° center connector. Lift or place the kettle from any angle onto its base.

Cool wall for a safe touch

Lid knob stays cool for a safe touch

Specifications

General specifications

Product features: 360 degrees base, Automatic shut-off, Boil-dry protection, Cord storage, Ergonomic grip, Flat heating element, Lid and spout filling, Non-slip feet, Wide opening lid

Accessories

Included: Spout filter

Technical specifications

Capacity: 1.2 L

Cord length: 0.75 m

Frequency: 50/60 Hz

Power: 2000-2400 W

Voltage: 220-240 V

Design

Color: White

Finishing

Material heating element: Stainless steel

Material of main body: ABS Plastic

Material switch: Polypropylene (PP)
