

PHILIPS

EnergyLight

HF3318

Feel energetic

Boosts your energy as on a sunny day

The Philips Energy Light is a special light therapy device that gives you the daylight and energy for you to retain the summer feeling all year long in a way that easily fits your daily routine.

Safe to use

- UV-free

Feel energetic in 30 minutes a day

- 10,000 lux light intensity
- Clinically proven

Comfortable and easy to use light

- Adjustable angle
- Light intensity dimmer
- Treatment time indicator

Highlights

10,000 lux light intensity

The EnergyLight produces light with all the intensity and quality of natural daylight. In fact, it can give you up to 10,000 lux, but without any unpleasant dazzle or glare.

Clinically proven

The Philips EnergyLight is clinically proven to increase your energy level and help fight winter blues.

Light intensity dimmer

Fight winter blues and get the energy as you do in summer while using the appliance at a convenient level of light you for example need

for easy-reading. The EnergyLight features a light intensity dimmer so it can easily be adjusted between zero to about 10,000 lux (at 15-20 cm) matching the intensity of your personal preference.

UV-free

The EnergyLight uses the full natural daylight spectrum. It meets European safety standards and features a UV-filtering screen. The EnergyLight is therefore safe to use.

Adjustable angle

The appliance can be positioned at various angles for comfortable use.
