

Hear nothing but first class sound

Philips Fidelio NC1 noise cancelling headphones

Journey into sound

Every discerning traveler knows that it is the journey that matters, not the destination. Life is just one continuous voyage, whether you're leaving on a jet plane, hitting the road or tracks, or arriving home.

Whatever your chosen mode of travel – on or off the beaten track – all expeditions come with their own inevitable cacophony. From the hubbub of fellow commuters and announcements to the drone of engines, it's an orchestra without a conductor, relentless yet oblivious to its very audience.

The most effective – and pleasurable – respite from this commotion is music: your personal soundtrack to all of your life's journeys.

A man with a beard and blue eyes is shown in profile, wearing large black headphones. He is sitting in a train carriage, with the interior seats and windows visible in the background. The lighting is soft and focused on his face.

Hear nothing but first class sound

Introducing the Philips Fidelio NC1 headphones and your passport to true high fidelity sound – untainted by noise.

Enjoy Fidelio's signature balanced and richly detailed sound that is kept dynamically pristine, thanks to superior noise cancellation technology. Every detail of the NC1's design – from construction to finishing – is about ensuring an exceptional listening experience in pure comfort – no matter where or how you travel. Premium materials and exacting craftsmanship create a timelessly stylish aesthetic that is effortless in its authenticity.

The result of our own enduring quest for sound perfection, the Fidelio NC1 is the ideal sound companion for any long haul or daily commute. The only thing you need to complete your travel experience is your favorite music.

Superior noise cancellation

What sets the Fidelio NC1 apart from the competition is its hybrid Active Noise Cancellation (ANC) proficiency. The NC-1 uses a feed-forward and feed-backward ANC solution, which features 4 microphones implemented inside and outside the ear cans that capture noise for advanced processing. This combination ensures cancellation over a wide yet deep frequency range for optimized music enjoyment in any environment.

Unlike other noise cancellation headphones, the NC1 keeps delivering high fidelity sound even when the battery runs out. So while all journeys must come to an end, your Fidelio sound experience doesn't have to.

High fidelity sound without compromise

The Fidelio sound promise is about delivering natural and dynamic sound that is true to the original recording and marked by rich bass, natural mid-range and clear highs.

With the Fidelio NC1 headphones, this unmistakable sound signature is never compromised – whether the Active Noise Cancellation (ANC) is on or off. Whatever environment you are in, every acoustic note and nuance comes through clearly – thanks to precision engineering and high definition 40mm neodymium drivers.

Tune in to your very own personal concert and tune out the world – as you wish. Turn off the ANC and you're instantly connected with your surroundings. Plus, smart features like microphone with in-line control allow you to switch easily from music to phone calls, with ANC to ensure crystal clear conversations. When you're ready, just hit 'Play' and re-immense in sound perfection.

Styled for sound travel

The Fidelio NC1 headphones are designed for discerning music lovers and travelers who appreciate the finer details in life.

Inspired by luxury design, the Fidelio NC1 articulates a distinct yet authentic style statement. Quality materials like aluminum and rubber impart the NC1 with its signature slim and lightweight yet superbly comfortable and secure architecture. Its sleek and seamless headband design makes it compact and convenient but also enduringly elegant. A carefully selected color palette completes the NC1's refined sophistication and matches any individual's personal style and look.

No matter where you go, you'll be traveling first class – all the way.

Crafted for ease and comfort

Ergonomics meets stylish portability in the Fidelio NC1 – effortlessly and seamlessly. Every detail is thoughtfully designed with your ease and comfort in mind, through every stage of your journey.

A pleasure to wear, the NC1's precision-crafted form-fitting design features an innovative quarter hinge that keeps its structure super slim and lightweight. Memory foam ear-pads feature breathable materials to disperse pressure and heat build-up, while the durable yet flexible headband with soft inner rubber ensures long-wearing comfort.

Whatever your travel mode, the NC1's smart dual-fold construction allows for flexible storage options, making it a breeze to pack. It also comes with a sleek travel case and airline adaptor, plus long-lasting battery life, making it not only the ideal but also essential travel companion for every journey.

Features

- **40mm high definition drivers**

Utilizing high power neodymium magnets, these advanced drivers deliver true high definition sound in a wide dynamic range. Hear every single detail, naturally and perfectly balanced.

- **Standalone acoustic chamber**

With active noise cancellation, every sound detail is precisely isolated by the standalone chamber so it remains unaffected by components. The result is pristine sound clarity without any compromise.

- **Tuned frequency response**

Enjoy sound that's faithful to the original recording, thanks to extensive research into your listening preferences and processes, which led the precision engineering of the NC1 headphones.

- **Superior noise cancellation**

Using feed-forward and feed-backward active noise cancellation, 4 microphones capture noise for advanced processing. Enjoy noise elimination over a wide yet deep frequency range in any environment.

- **Consistent high fidelity sound**

Specially tuned and engineered to always deliver optimal high performance sound, the NC1 allows you to enjoy high fidelity sound in any environment, whether the ANC is on or off.

- **Zero hiss**

Hiss is the electronic noise usually heard when wearing headphones with the ANC on. The NC1's hybrid ANC technology greatly minimizes hiss, leaving your listening enjoyment uninterrupted by any noise.

- **Smart power solution**

Unlike most noise cancellation headphones, the NC1 keeps you on your sound journey even after the battery runs out. Just turn off the ANC and continue to enjoy high fidelity sound wherever you go.

- **Memory foam cushion**

The NC1's ear cushions are crafted with premium memory foam that will fit itself perfectly to the shape of your ears, providing ideal ergonomic fit and enhanced noise cancellation performance.

- **Multi-way folding**

Great style meets smart design with the NC1's slim, compact and lightweight construction that folds multiple ways, making it the perfect travel companion.

- **In-line control and mic**

Switch easily between music and phone calls, and enjoy communication in crystal clear sound even in bustling environments – thanks to the NC1's superb noise cancellation technology.
