## mportant safety notice

- To ensure your child's health and safety, use the product with adult supervision. After opening, immediately dispose of the product packaging or store it in a place out of babies' Check the bottle before each use to ensure
- all components are attached correctly. If you discover any damage, cracks or broken pieces on the bottle, stop using it immediately. Glass bottles are fragile and should be used with care - do not let the baby use the bottle
- When the glass bottle is wet, handle with extra care to avoid slippage.
- When the surrounding temperature or the temperature of the glass bottle is low, do not immerse the bottle directly into boiling water to prevent cracks to the bottle.
- To avoid cracks, never use iced water to cool the glass bottle. Instead, use running water to cool the bottle, or immerse the bottle in a basin containing an appropriate amount of
- cold water. The glass bottle will remain hot following sterilization. To prevent burns, use the bottle tong to take the bottle or wait until cooling down.

### Do not place the glass bottle in the freezer. Do not use the teat as a pacifier.

### . Before first use

Do not use metal spoons to stir glass bottles

- Disassemble and then wash and sterilize the product thoroughly
- Sterilize each component in boiling water for 5 minutes or sterilize with Philips AVENT Sterilizer. For more sterilizing instruction refer to the instruction manual for the

### Assembly

 Wash your hands thoroughly before touching sterilized component.

discard it immediately

find any damage or flaws to the teat, please

### 4 Feeding suggestions

 The bottle should only be used for the feeding of water and milk. For fruit juice or soup, use the Philips AVENT standard cross cut teat, sold separately. To avoid scalding, do not pour high-

temperature liquids into the bottle. Do not use the microwave to heat contents

in the bottle, as this may lead to uneven heating and cause injury to your baby When cooling the bottle, do not use running

### Hold on to the bottle rather than the bottle

# water to rinse the teat or bottle.
