Micro Pure

WP3820

Pure water made easy with Digital PureProtect Alert

Compact and sophisticated water purifier that gives you pure water by removing bacteria, harmful organic compounds and chlorine with a Micro Pure filter. It has a precise display to tell you exactly when to replace the filter.

Pure water

- Removes all bacteria, harmful organic compounds and chlorine

Made easy

- LCD display informs you when to replace the filter
- Hi-flow with maximum rate of 2 liters per minute

Simplicity

- Quick Fit tap adapters for easy installation on your tap
- Advanced Quick Twist mechanism for easy filter replacement

Sustainability

- Maximum performance without the need of electricity

Highlights

Micro Pure filter

The Micro Pure filter is a multi-filtration system that removes all bacteria, impurities and odors for clean, safe and tasty drinking water. It consists of a hi-tech hollow-fibre membrane, which contains more than 520 billion micro-pores for the efficient removal of 99.99% of all bacteria, and granular activated carbon which removes unpleasant chlorine, bad taste and odors. The filter also preserves all good minerals in the drinking water that are vital for human health.

Electronic Pure Protect alert

The electronic flow meter of your water purifier shows in a LCD display the actual remaining filter capacity, in liters. A blinking signal is activated once the filter reaches its lifetime, warning you precisely when the filter needs replacing.

Hi-flow

This compact water purifier has a maximum flow rate of 2 liters per minute, which makes little change to the normal flow rate of unfiltered water. By simply rotating the water selection lever, you also have a choice of either a stream or a spray of unfiltered water or spray of filtered water.

Quick Fit tap adapters

This advanced water purifier comes with a number of tailor-made Quick Fit tap adapters, to help you having an easy and simple installation of your purifier in your tap. Real sense and simplicity.

Quick Twist filter change

The advanced Quick Twist filter change mechanism makes changing the filter quick, easy and secure, bringing sense and simplicity to your water purifier.

Specifications

General specifications

Replacement filter cartridge: WP3911
Water selection: Unfiltered stream, Unfiltered spray, Filtered spray
Accessories: 8 QuickFit tap-mounting adapters, color coded PureProtect alert

Country of origin

Replacement filter: Japan
Water purifier: Japan

Weight and dimensions

Product dimensions (L x W x H): 93 x 144 x 112 mm
Product weight: 370 g
F-box dimensions (L x W x H): 88 x 170 x 140 mm
F-box weight: 490 g
A-box dimensions (L x W x H): 360 x 450 x 165 mm
A-box weight: 5.7 kg

Logistic data

EAN F-box: 87 10103 38632 2
EAN A-box: 87 10103 38633 9
Quantity per A-box: 10 pcs
Country of Origin: Japan

Purification system

Major Filter Components: Granular activated carbon GAC, Hollow-fiber membrane
Filter Lifetime: 2400 L or approx. 8 months

Purification performance

Bacteria: 99.99 %
Chlorine: >75 %
VOC Removal
Turbidity removal

Input water conditions

Min. input water pressure: 0.7 bar
Max. input water pressure: 3.5 bar
Min. input water temperature: 5 °C
Max. input water temperature: 50 °C
Water Flow Rate: on average, 2 l/min

Sustainability

Packaging: > 90% recycled materials
User manual: 100% recycled paper

Design specifications

Color(s): White
Materials: Plastic
