  - Welcome message on screen display
  - Switch On Channel Programming

- **Differentiating guest experience**
  - Integrated clock display with wake-up and message alarm
  - One combined channel list for Analogue and Digital channels
  - Attractive channel list for easy navigation
  - Easy-to-use Hospitality Remote Control
  - Philips Connectivity Panel compatible to enjoy guest devices

- **Best total cost of ownership**
  - Set-top box compatible
  - USB cloning of all settings for quick installation

- **Sustainable and safe**
  - Eco-friendly design and flame-retardant housing
Highlights

**HD LCD display**
This WXGA display with state-of-the-art LCD screen technology gives your guests widescreen HD resolution of 1366 x 768p pixels. It produces brilliant flicker-free progressive scan pictures with optimum brightness and superb colours. This vibrant and sharp image will provide your guests with an enhanced viewing experience.

**Welcome message**
A welcome greeting is displayed each time the TV set is switched on.

**Switch On Channel Programming**
Perfect for in-house advertising or information channels as it allows a predefined channel to be shown when the TV is turned on.

**Integrated clock display**
The built-in clock display, which is also a wake-up alarm, eliminates the need for investment in an additional clock with cables and connections in the room. Automatic time synchronisation via teletext and preservation of alarm settings during short power outages further enhances guest comfort.

**One combined channel list**
One integrated channel list for digital and analogue channels. This allows the guest to flick seamlessly between Analogue and Digital channels.

**Attractive channel list**
The attractive channel list includes clear and intuitive buttons with clear guiding graphics for easily finding your favourite channels.

**Hospitality Remote Control**
This TV comes with a stylish remote control that is specially designed for hospitality usage. For an easy-to-use experience for the guest, only the most essential buttons and functions are offered. In addition, low battery check and anti-theft battery provisions are features that can contribute to efficient hotel operations.

**Connectivity Panel compatible**
This TV works seamlessly with Philips Connectivity Panels. The guest can easily connect and enjoy media from a PC, MP3 player, DVD player, camcorder and various other devices. With autosensing, the Connectivity Panel and the TV will automatically switch to display the content from the connected guest device.

**Set-top box compatible**
This hotel TV can be connected to a set-top box offering power on scart and the Serial Express Lite protocol.

**USB Cloning**
Provides the ability to easily copy all programming and channel programming settings from one TV into other TV sets in less than a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

**Eco-friendly design**
Sustainability is integral to the way Philips does business. Philips TVs are designed and produced according to our EcoDesign principles aimed at minimising overall environmental impact, through lower power consumption, removal of hazardous substances, lower weight, more efficient packaging and better recyclability. Philips TVs also have a special housing of flame-retardant material. Independent tests carried out by emergency fire services have shown that whereas TVs can sometimes intensify fires caused by external sources, Philips TVs will not contribute to a fire.
Specifications

### Picture/Display
- **Diagonal screen size:** 32 inch / 81 cm
- **Aspect ratio:** Widescreen
- **Screen enhancement:** Anti-Reflection coated
- **Dynamic contrast:** 30000:1
